

Acceptable Use Policy (AUP)

This **Acceptable Use Policy** outlines the rules and guidelines for using INTELLICODE 360 services. By using our services, customers agree to comply with this Policy.

1. Prohibited Activities: Customers may not use our services to:

- Engage in any illegal, fraudulent, or harmful activities.
- Send spam, malware, or other harmful content.
- Harass, abuse, or threaten others.
- Violate intellectual property rights.
- Engage in unauthorized access, hacking, or network disruptions.

2. Security & Privacy:

It is the responsibility of the customer to ensure the security of their account and our services. The following security measures should be taken:

- Customers are responsible for securing their accounts and devices.
- Any unauthorized access or security breach should be reported immediately.

3. Network Usage:

The customer should not use our services to consume excessive network resources or negatively impact the quality of service of other customers. The following guidelines should be followed:

- The customer should not use our services for any activity that requires high bandwidth or prolonged usage.

- The customer should not use our services for any activity that involves hosting servers, unless the customer has purchased a dedicated hosting service from us.

4. Reporting Incidents

Any suspected violation of this policy or any security-related concern should be reported immediately to compliance@intellicode360.com

5. Termination of Service:

We reserve the right to terminate the service of any customer who violates this Policy or engages in any activity that may harm our network or other users.

6. Changes to the Policy:

We may modify this Policy at any time, and such modifications shall be effective immediately upon posting the modified policy on our website. Customers are encouraged to regularly review this policy to stay informed of any changes.
